

TROUBLESHOOTING: If flashlight does not turn on or stay on -
1. Replace the batteries. If the problem persists, then 2. Check the tail cap and battery holder. All contacting metal surfaces should be clean, shiny and free of corrosion or other obstruction. Clean as needed. 3. If the flashlight still does not operate properly, see the tips at [www.maglite.com>customer service>](http://www.maglite.com/customer-service) [click on image of your flashlight]>frequently asked questions. If this does not resolve the problem, see the “How and When to Make a Warranty Claim” section.
