

WARNINGS:

AVOID EYE INJURY - Do not stare directly into beam or shine it directly into anyone's face. Doing so for more than a few seconds could cause retinal damage.

Any battery may leak harmful chemicals which may damage skin, clothing or the inside of the flashlight. TO AVOID RISK OF INJURY, DO NOT LET ANY MATERIAL LEAKED FROM A BATTERY COME IN CONTACT WITH EYES OR SKIN. Any battery may rupture or explode if put in a fire or otherwise exposed to excessive heat. TO AVOID RISK OF INJURY, DO NOT EXPOSE BATTERIES TO EXCESSIVE HEAT. To reduce the risk of personal injury or harm to your flashlight, take the following precautions:

- Use only alkaline batteries from a reputable manufacturer.
- Do not use different brands of batteries in the same flashlight.
- When replacing batteries, always replace the whole set.
- Do not use rechargeable or reuseable alkaline batteries.
- Do not try to recharge batteries that are not specifically designed to be recharged.
- Warning: batteries must be inserted correctly. Failure to do so could cause permanent damage to the LED module.
- Follow battery manufacturer's instructions as to proper handling, storage and disposal of batteries.
- Carefully follow the steps listed under INSPECTION AND MAINTENANCE.
- Not recommended for use by children under fourteen years of age.
