

## Limited Lifetime Flashlight System Warranty/ One Year Battery Pack Warranty

MAG INSTRUMENT, INC. ("Mag") warrants to the original owner that this MAGLITE® ML125™ LED FLASHLIGHT SYSTEM (the "SYSTEM") is free from defects in parts and workmanship. As to the flashlight and other components of the SYSTEM, except the rechargeable NiMH battery supplied herewith, this warranty lasts for the life of the original owner. As to the NiMH battery, this warranty lasts for one year from date of purchase. Registration is not required for warranty coverage. Mag or an authorized Mag Warranty Service Center will repair the flashlight or other SYSTEM component or, at its option, replace a defective flashlight or other SYSTEM component free of charge. This warranty is in lieu of all other warranties and conditions, express or implied. Exclusions: This warranty does not cover LED burnout and/or LED module failure or damage to or failure of the SYSTEM or any component thereof due to alteration, product misuse, lack of maintenance or leakage of a NiMH battery more than one year after date of purchase. (Product misuse includes, but is not limited to, installing any rechargeable battery pack other than a Mag® battery pack or its technical equivalent.)

Mag disclaims any responsibility for incidental or consequential damages. Some jurisdictions in Canada and the United States do not allow exclusion or limitation of implied warranties, incidental or consequential damages and/or limitations on transferability, so the above limitations and exclusions may not apply to you.

How and when to make a warranty claim: Before returning the flashlight or other SYSTEM component for service, be sure you have followed the steps outlined in the Troubleshooting Guide section of your MAGLITE® ML125™ LED FLASHLIGHT SYSTEM Owner's Manual. If you have followed all of these steps and the flashlight or other SYSTEM component fails to operate properly, proceed as follows: 1. In case of NiMH rechargeable battery failure more than one year after purchase date, do not return the flashlight or other system component to Mag but replace the NiMH battery. You can buy replacement NiMH batteries directly from Mag or from most retail outlets where Mag flashlights are sold. 2. For warranty returns: Send the flashlight or other SYSTEM component (postage or shipping prepaid) to Mag Instrument, 2001 South Hellman Avenue - 50600, Ontario, California, USA 91761-8019, Attention: Warranty/Repair Department, or to an authorized Mag Warranty Service Center. For the location of an authorized Mag Warranty Service Center in your area, consult the retailer where you purchased the flashlight. For your protection and to expedite handling and/or postal claims, we recommend that all returns be insured and sent Certified and/or Return Receipt Requested. 3. If the flashlight has been damaged by leakage of alkaline batteries, do not return the flashlight to Mag, but determine what brand of battery caused the damage and follow the battery manufacturer's instructions about how to make a damage claim.

In Canada and the United States this warranty gives you specific legal rights, and you may have other rights which vary from state to state and from province to province. Where any term of this warranty is prohibited by the law of any jurisdiction, such term shall there be null and void, but the remainder of this warranty shall remain in full force and effect. To register your new Mag® flashlight visit our website at [www.maglite.com](http://www.maglite.com). From our home page just go to "Register Your Flashlight".
